About

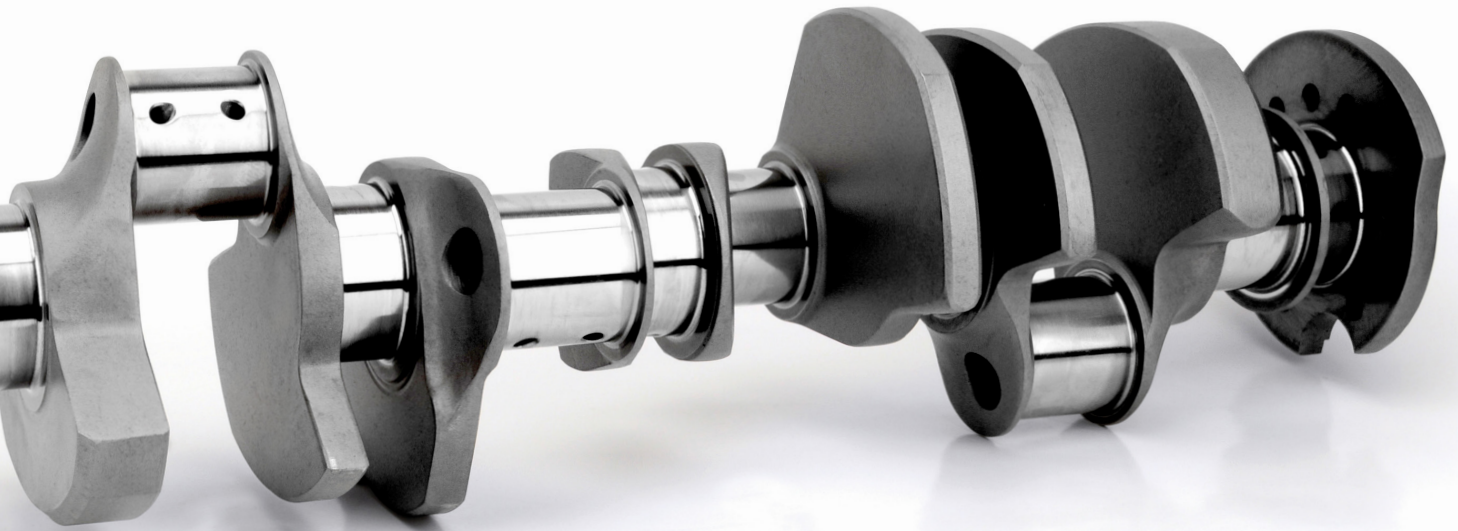

Ayku Crankshafts

IQ Ideal Quality Crankshaft Co., Ltd. has been manufacturing quality replacement/aftermarket crankshafts for diesel and gasoline engines since 2004 in Konya with thirty (30) years experience and aggregation.

As the leading crankshaft manufacturer and exporter in Turkey, our products are exported to more than fifty (50) countries worldwide. We are proud to be supplier of the most authorized and leading companies in their country or region. Thanks to our quality, principles and clients; we are very pleased to be one of the most shining stars of the automotive spare parts Industry of Konya, Turkey.

Joining the global market in today's conditions requires well knowledge, technology, experience, market information and successful management. We believe that all these features are involved in our qualified team. Our company containing the above metioned within our proterties has achived to provide quality serves to our costumers, wholesalers and distrubutors in the whole world.

Constantly investing in people and technology, "IQ Crankshaft" was deemed worthy of the ISO 9001:2008 Quality Manegement System Certificate in 2005 tahnks to its trained and specialized staff, quality of service and its approach to quality management. IQ Crankshafts never slackens its efforts at improvement to keep abreast of developments.
